## about us

Zarin Mou Company is one of the pioneers in the grape products industry in Iran, established with the aim of producing and offering high-quality and natural products. Utilizing modern technologies and the expertise of its specialists, the company produces various types of raisins, grape syrup, and grape vinegar, and has gained high reputation and credibility in this field. All products of the renowned Zarin Mou brand are made from fresh, high-quality grapes and are free from any additives and preservatives. The Zarin Mou team is constantly working to improve its production processes and expand its product range to enhance product quality and meet customer needs. The company also aims to build close relationships with local farmers and support domestic production.

Quality of products is one of the core principles of Zarin Mou Company. The company controls all stages from cultivation and harvesting to processing and packaging with precise quality control to ensure that the final products meet the highest standards. By providing high-quality products in the grape products sector, Zarin Mou has become one of the reputable names in this industry. With a focus on quality, innovation, and customer needs, the company seeks to expand both domestic and international markets. Choosing Zarin Mou products not only guarantees receiving a natural and delicious taste but also contributes to your health.

### Long Green Raisins

Long Green Raisins are among the highest quality types of raisins, obtained from grapes grown in various cities, particularly in Kashmar, and harvested by hardworking farmers. This product, with its cylindrical and meaty appearance, is used along with chickpeas as one of the main nut mixtures and is offered by the capable Zarin Mou brand in two quality grades: first-grade and super premium, in volumes suitable to customer needs, and in hygienic and modern packaging.

## Sultana Raisins

Sultana Raisins refer to seedless raisins with colors such as brown, light green, brown, and sometimes golden, which are soaked in acidus and then dried in the shade or under sunlight. This popular and well-loved product has a very pleasant taste and is known globally as Sultana raisins.

## Golden Raisins

Golden raisins refer to seedless raisins that are exposed to sulfur smoke in a covered space using specific methods, resulting in a yellow and golden color. This product is known globally as golden raisins.

### Black raisins (Mawiz)

Black raisins (Mawiz) are made from two types of grapes: red Shahani and black grapes, using various methods including mechanized and traditional processes. Depending on the grapes used, this product can be either seeded or seedless and has a unique taste, meaty appearance, and darker color compared to regular raisins.

## Grape Syrup

Another product derived from grapes is grape syrup or molasses, made from various types of grapes and raisins using different methods. Known in the market as Grape Syrup, this product is used not only as a natural sweetener in foods and desserts but also has many therapeutic and health benefits.

## Grape Vinegar

Grape vinegar is another natural product derived from grapes and is a natural and delicious condiment made from the fermentation of grape juice. With its distinctive and sharp taste, this product is one of the most popular condiments for preserving and flavoring foods, recognized as a popular addition in cooking and salad preparation. It not only adds a special flavor and aroma to dishes but also offers numerous health benefits.

Zarin Mou Company understands the importance of packaging in maintaining product quality and attracting customers, and thus employs various packaging techniques and materials. This approach not only enhances the consumer experience but also demonstrates the company's commitment to the quality and safety of its products. The experienced Zarin Mou team, using the latest equipment and execution methods, offers its products in a variety of packaging options, generally in small and bulk packages, tailored to market needs and customer requirements at competitive prices worldwide.
